MUHAMMED SHAFI KT

Calicut, Kerala | 8137832789| muhammedshafikt85@gmail.com | LinkedIn | GitHub

SUMMARY

Entry-level MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, and TypeScript. Experienced in REST API development, authentication, Docker, Redis, BullMQ, AWS deployment, and AI-powered analytics platforms. Passionate about designing secure, high-performance applications and solving real-world engineering problems.

EDUCATION

Sree Narayana Guru Open University (SGOU), Kerala — Expected Graduation 2026

- Bachelor of Computer Applications *(BCA)*

TECHNICAL SKILLS

- Computer Languages: JavaScript, TypeScript, HTML5, CSS3
- Frontend Technologies: React.js, Redux Toolkit, Next.js, React Router, Tailwind CSS, Axios, Recharts
- Backend Technologies: Node.js, Express.js, REST API Development, Socket.IO
- Databases: MongoDB, Mongoose, DuckDB, Redis
- Cloud & Deployment: AWS EC2, Cloudflare R2, Vercel
- Tools: Git, GitHub, Postman, Docker, BullMQ, Puppeteer, Multer, Vite, Cloudinary, Razorpay
- Authentication & Security: JWT, Bcrypt, Cookie-Based Authentication, Google OAuth
- AI & Analytics: OpenAI SDK, LLM Integration, Data Profiling, Dashboard Generation

WORK EXPERIENCE

Bridgeon Solutions, Full Stack Developer Intern, Kerala, India — November 2025 – Present

- Developed scalable web application features using React.js, Node.js, Express.js, and MongoDB.
- Designed and integrated secure REST APIs with JWT authentication and MongoDB.
- Built reusable backend modules, optimized application performance, and maintained existing features.

PROJECTS & LEADERSHIP EXPERIENCE

Insight Flow | AI-Powered Data Analytics Platform | Live Demo | GitHub 2026

React.js, Redux Toolkit, Node.js, Express.js, MongoDB, DuckDB, Redis, BullMQ, Socket.IO, Cloudflare R2, OpenAI, Puppeteer, AWS EC2

- Developed interactive dashboards with multiple chart types and integrated Redis, BullMQ, Socket.IO, and Puppeteer to support background job processing, real-time status updates, and PDF report generation.
- Built a multi-stage data pipeline for ingestion, profiling, validation, and dashboard generation using Node.js, Express.js, MongoDB, and Cloudflare R2.
- Implemented a DuckDB analytics engine for querying datasets stored in Cloudflare R2 without downloading files.
- Deployed the Node.js backend on AWS EC2, hosted the React frontend on Vercel, and implemented secure JWT authentication with Google OAuth.

Luxora | Full Stack E-Commerce Platform | Live Demo | GitHub 2026

React.js, Context API, Node.js, Express.js, MongoDB, Razorpay, Cloudinary

- Developed a full-stack e-commerce platform featuring product management, shopping cart, wishlist, coupons, and secure checkout.
- Built REST APIs with JWT authentication, Google OAuth, role-based authorization, and MongoDB
- Integrated Razorpay payments, Cloudinary image management, Redux Toolkit, and an admin dashboard
